SKILLS

- HTML5
- CSS
- JavaScript
- React.Js
- Git
- GitHub
- REST APIs
- Linux
- TypeScript
- Next.Js
- Node.Js
- Express.Js
- Bootstrap
- Material UI
- Tailwind CSS

SUMMARY

Frontend Developer with a background in mechanical engineering and a passion for web development. Pursuing full stack web development bootcamp and learned various technologies, such as HTML, CSS, JavaScript, Node.js, React. Built several web projects, such as e-commerce site, to showcase my skills and creativity. Eager to apply my problem-solving and design abilities to create user-friendly and responsive web solutions.

PROJECTS

QKart – Nov 2023

[Link](#)

- Built Core E-commerce Features: Developed authentication, shopping cart, and checkout logic using JavaScript and React Hooks, leveraging REST APIs for seamless backend interaction
- Improved UI Responsiveness: Enhanced user experience by implementing responsive design elements with Flexbox, Material UI, HTML, and CSS for consistent display across devices
- Optimized Performance and Interaction: Employed advanced frontend techniques like debouncing, async/await, and event handling for optimized performance and smooth user interaction

Qtify (Spotify Clone) – Dec 2023

[Link](#)

- Crafted Aesthetic UI: Designed and developed Qtify's sleek UI using ReactJS, Material UI, and Swiper, ensuring a seamless browsing experience
- Efficient Data Handling: Implemented REST APIs and React Hooks to fetch and display backend data, while employing DOM manipulation for smooth event handling
- Full Stack Proficiency: Demonstrated full stack skills by seamlessly integrating front-end and back-end functionalities, utilizing JavaScript, HTML, CSS, and React lifecycle methods

XBoard – Oct 2023

[Link](#)

- Built Responsive News Feed: Developed XBoard using HTML, CSS, Bootstrap, and Vanilla JavaScript, ensuring responsiveness and smooth user experience
- Improved UI with Features: Enhanced XBoard's interface with Accordions and Image Carousel for better content organization and visual presentation
- Integrated External News Source: Utilized Flipboard's RSS feed via REST API to populate XBoard with latest news content

QTrip Dynamic – Sept 2023

[Link](#)

- Dynamic Travel Website Creation: Developed QTrip using HTML, CSS, and Vanilla JavaScript, integrating multi-select filters and image carousels for enhanced user experience
- Improved UX with Client-side Storage: Enhanced user experience by implementing localStorage to persist preferences, ensuring personalized interactions
- Frontend Proficiency: Demonstrated expertise in frontend development with CSS Grid, Flexbox, event handling, and form management. Utilized async/await for efficient data retrieval from REST APIs

EXPERIENCE

Estimation Engineer, Kilburn Engineering Ltd., Kalyan MH - July 2021-January 2022

- Developed budgets and cost estimates for upcoming and ongoing projects
- Conferred with staff and management to coordinate business operation
- Prepared project budget estimates for review by management team

EDUCATION

- **Bachelor of Engineering – 2017 - 2020 – 6.97 CGPA**
Mechanical Engineer, Dilkap College of Engineering, Neral
- **Diploma – 2014 - 2017 – 66.24%**
Mechanical Engineer, Dr. N. Y. Tasgaonkar Polytechnic College, Raigad

ACHIEVEMENTS

- Scored **85 score out of 100** with Gold Membership on Geektrust in Admin UI frontend creation
